- Data Structures | Algorithms | Testing |

Experience

IT Intern Fort Bend County *Houston, TX, USA* **06/2026 - Present**

- Provided technical support for hardware, software, and network issues across county departments.
- Documented IT support tickets and internal procedures to maintain accurate service records.
- Collaborated with the IT team on system maintenance, software updates, and infrastructure projects.
- Supported staff with user account management, software troubleshooting, and day-to-day technical needs.

Data Analysis Intern Harris County Engineering *Houston, TX, USA* **08/2025 - 12/2025**

- Use Cartegraph and ArcGIS to work with maps and asset data for county projects.
- Write Python scripts to clean, organize, and show data in charts or reports.
- Work with the IT & Asset Management team to improve data processes and support projects.
- Help check and upload data from outside sources like Fugro into county systems.

Supervisor Long Coffee *Houston, TX, USA* **05/2020 - 06/2024**

- Supervised daily operations, ensuring high quality service and product standards.
- Trained new employees and supported team performance during busy hours.
- Managed inventory, restocking, and daily store maintenance.
- Resolved customer concerns and maintained a clean, organized workspace.

Marketing Intern Christ Rose Foundation *Houston, TX, USA* **10/2023 - 05/2024**

- Assisted in creating and managing social media content to increase community engagement.
- Supported marketing campaigns by conducting research and analyzing audience data.
- Designed promotional materials using Canva and other tools for online and print use.
- Collaborated with the team to plan events and outreach strategies to boost foundation visibility.

Education

Bachelor of Science University of Houston *Houston, TX, USA* **05/2024 - 05/2027**

- Major in Computer Science

Associate of Science Houston Community College *Houston, TX, USA* **08/2022 - 05/2024**

- Major in Computer Science

Projects

- **E-Commerce Store (Full Stack, React, Node.js):** Developed a full-stack web application simulating an online store. Implemented product listings, shopping cart functionality, and server-side routing with Express. Designed a responsive React front-end for smooth navigation and dynamic product rendering.
- **Responsive Portfolio Website (HTML, CSS, JavaScript, NodeJS):** Designed and built a fully responsive personal portfolio using React components for dynamic rendering. Created the UI layout in Figma and implemented a modern, mobile-friendly interface to showcase projects and contact details.
- **Weather App (React, API, HTML, CSS, JavaScript):** Created a weather dashboard that retrieves live weather data from an external API. Implemented city search, real-time updates, and a responsive interface for accessibility across devices.
